Lyle A Alexander  
 Primary Examiner  
 Art Unit: 1743

The following is an examiner's statement of reasons for allowance: In addition to the remark of the 1/29/04 Appeal Brief, the cited prior art fails to teach or anticipate a system comprising a means for obtaining a sample, a tube means for receiving the sample and a sorbent material having a reagent pre-deposited in the sorbent such that when the sample is applied to the sorbent material by the tube means the sample does not migrate from the point of contact and is analyzed at the point of contact. The cited prior art is directed to a system where the sample migrates from the point of contact and is not analyzed at the point of contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
